100 DAYS: YUKON Midnight Sun Productions	2011	Brett Rogers, Les Stroud, prod. Brett Rogers, dir.

BIOGRAPHY

Sean James Boyer is a Toronto-based composer who brings his love of music and storytelling into all of his projects. He is known for his exciting, imaginative, and adventurous approach to scoring, which he has brought to many projects including the Netflix animated series **My Little Pony: Make Your Mark**, as well as **Amelia Parker** (Superchannel), **Mutant Weather** (Cottage Life), **Dog Tales Rescue** (CTV), **Etalk** (CTV), **Daily Planet** (Discovery), **Newborn Moms** (CBC), **Haunted Case Files** (T&E), **Alone** (History), **Expedition Unknown** (Discovery), **60 Days In Narcoland** (A&E), **Last Stop Garage** (Discovery), **Projects: Built For The Weekend** (Cottage Life Network) and countless other film and television programs airing internationally.

For his recent work in the **Netflix** 3D animated series *My Little Pony: Make Your Mark*, Sean created a sophisticated action adventure score using a mixture of orchestra and synthesized instruments to bring the magic, comedy and excitement back to Equestria. The score draws on bells, lush strings, and leaping woodwinds to create a fun action-packed adventure for new generations of young children that is also enjoyable for parents who grew up watching earlier iterations of the series.

Although he works mainly in children's animated series, Sean's earlier work includes many different genres. In the true crime series *An Unexpected Killer* (T&E/Oxygen), Sean created a haunting and unsettling soundscape, using bell and guitar sounds that he recorded and manipulated himself, along with custom modular synths and full orchestra, to lead the audience through the twisting and unpredictable plot turns of each episode. For the series **Martyrs: The Chronicles of Blood**, Sean collaborated with the show's creator to record a vocalist singing in an invented language, which he blended with Middle Eastern instruments to tell the epic tale of the world's first vampire. For the television series *Paranormal Survivor* (T&E), Sean created an atmosphere of fear and unsettledness that drove the story forward by mixing the recorded sound of a Cessna airplane propeller with a rumbling and pulsing modular synth. In the film *Age of Dinosaurs* (SyFy), Sean's orchestral fanfare took the audience on a magical journey of fantasy and danger. A proponent of the power of live musicians, Sean works regularly with orchestras in Toronto, New York and Macedonia.
