BIOGRAPHY

Steve London is a Los Angeles-based multi award-winning film, television and video game composer, who is best known for his scores for the award-winning Chet Baker biopic "**Born to Be Blue**" (IFC/eOne), the fan-favorite animated Fox TV show, "**The Ripping Friends**" (from the creator of "Ren and Stimpy"), the 'Top 20 of 2020 Indies' video game, "**Star Renegades**" (Massive Damage/Raw Fury) and the 2016 Oscar nominated documentary short film, "**Chau, Beyond the Lines**" (Netflix).

Whether it's the slow corruption of the initially pristine hybrid film score of "**The Immaculate Room**" (Hulu), the quirky and dark orchestral score to the film, "**Stockholm**" (Blumhouse/eOne) or the award-winning chip-tune score to the video game score for "**Halcyon 6: Starbase Commander**" (Massive Damage), Steve's natural talent, and 'concept-tied-to-story' approach is readily apparent as he shifts from musical genre to musical genre with ease. As a multi-instrumentalist, he also regularly develops and finds new ways to twist traditional acoustic sounds, such as the electronically processed Vietnamese children's orchestra that created the resonant emotional textures for "**Chau, Beyond the Lines**", or the new horror instrument, the Hell Harp, which is currently in development.
